.. Not available. PPP is purchasing power parity; an international dollar has the same purchasing power over GNI as a U.S. dollar has in the United States.

Note: Rankings include all 209 World Bank Atlas economies, but only those with confirmed GNI per capita estimates or those that rank among the top twenty for the Atlas method are shown in rank order. Figures in italics are for 2006 or 2005. a. 2007 data not available; ranking is approximate. b. Estimate is based on regression; other PPP figures are extrapolated from the 2005 International Comparison Program benchmark estimates. c. Data include the French overseas departments of French Guiana, Guadeloupe, Martinique, and Réunion. d. Data exclude Kosovo and Metohija. e. Data exclude Transnistria. f. Data refer to mainland Tanzania only. g. Estimated to be low income (\$935 or less). h. Estimated to be upper middle income (\$3,706 to \$11,455). i. Estimated to be high income (\$11,456 or more). j. Estimated to be lower middle income (\$936 to \$3,705).
